## THE SCOPE AND CONTENT OF THE SCIENCE OF ANTHROPOLOGY

Historical review, library classification, and select, annotated bibliography, with a list of the chief publications of leading anthropological societies and museums.

By JUUL DIESEERUD, A.M.

A thorough-going, painstaking work, in which the author makes an attempt to settle the perplexing question, what anthropology really is, to define its boundaries with other sciences and give a detailed enumeration of its contents as conceived today by the leading anthropologists of the various civilized countries of the world.

The bibliography (95 pages) gives succinct extracts from the works listed, thus furnishing the material on which the historical review and the elaborate library classification are founded.

A most welcome reference book for the anthropologist, and a necessary tool for any library containing anthropological literature.
